

SmartGrid is greater than smart grid

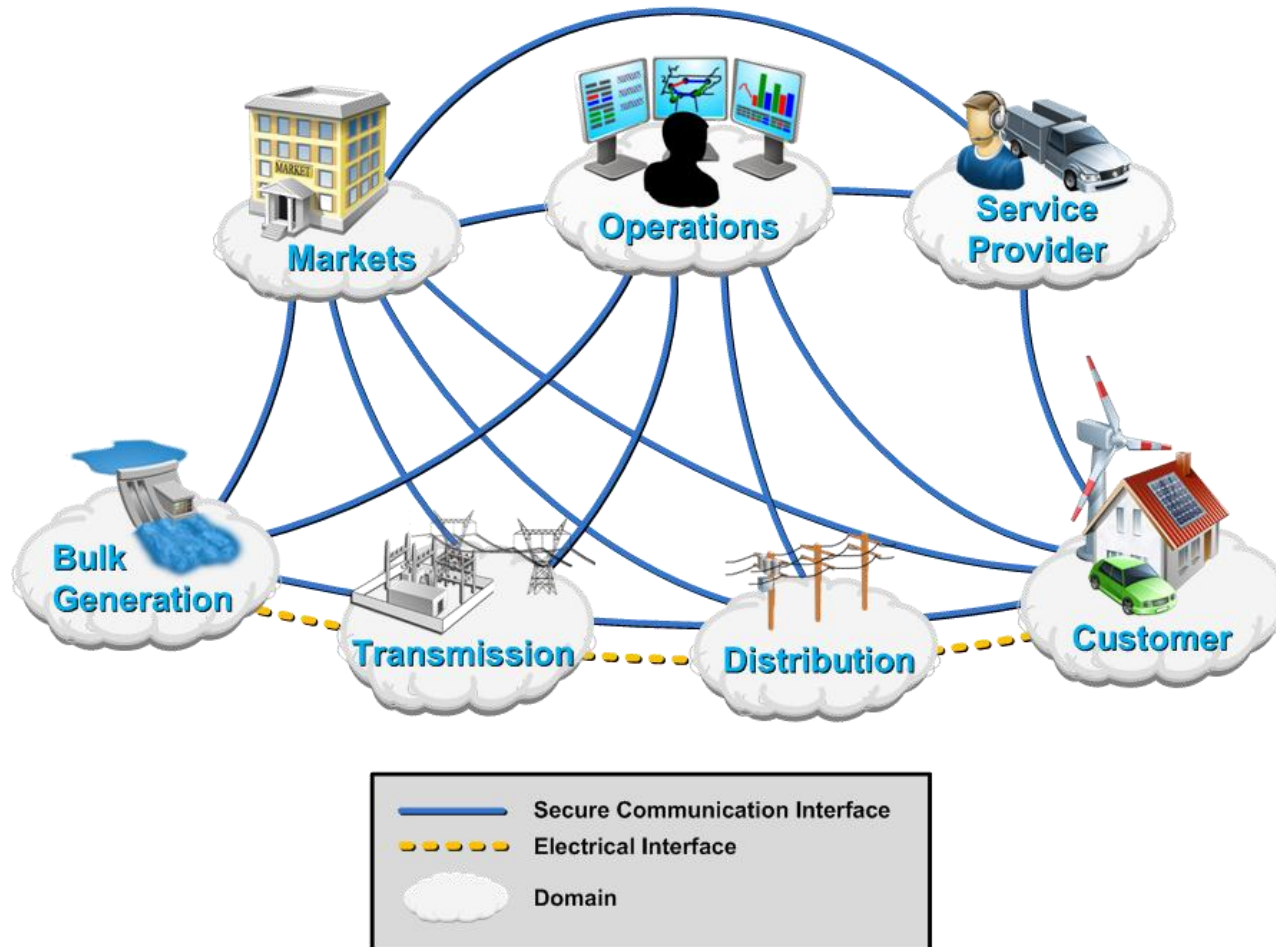

News from Research Labs

Valeriy Vyatkin
University of Auckland, New Zealand

Presented at the International Energy Conference
«Technological Basis for Creation of Russia's New Energy»
Skolkovo, November 26, 2010

SmartGrid Definition (NIST)

The power distribution grid is already smart enough
But, the potential of making it **smarter** is enormous!

Roadmaps on SmartGrid

1. The European Electricity Grid Initiative (EEGI), Roadmap 2010-18 and Detailed Implementation Plan 2010-12
2. IEC Standardization Management Board (SMB), Smart Grid Strategic Group (SG3), “IEC Smart Grid Standardization Roadmap”, June 2010.
3. Report to NIST on the Smart Grid Interoperability Standards Roadmap," Electric Power Research Institute (EPRI) August 10 2009
4. The German roadmap E-energy / smart grid, DKE German Commission for Electrical, Electronic & Information Technologies of DIN and VDE, VDE Association for electrical, Electronic & information technologies.
